

Amendments To the Abstract:

In the English translation document, please add the section heading at page 18 line 1, as follows:

--ABSTRACT--

In the English translation document, please add the paragraph at page 18 line 1, after the newly added ABSTRACT section heading, as follows:

The invention relates to a method for selecting network access to one or more data networks by means of a telecommunications terminal. In a first step of said method, network access information, which has been determined by the telecommunications terminal and/or additional telecommunications terminals during network connections established by different network access operations, is analysed. In a second step, network access is selected on the basis of the analysed network access information.
